

Catalog Number

47302-26-005

Union, Connector Kits, Cross, high pressure, 0.50 mm / 0.020 through hole with 10-32 screw threads. Carbon PEEK Endure, with connector nuts. Use with 1/16 tubing. ARE-Applied Research brand. 5/PK.

Additional Info

These "Union" kits are used to connect PEEK or stainless steel tubing with the same connectors on all ends in the high pressures zones of HPLC systems. A "Cross (X)" internal flow pattern is often used to split flow into two or three directions or to combine two or three streams into one.

Supplied with 2 cross unions [47302-25](#) and four finger tightened connectors (nuts) [47301-05](#).

Carbon PEEK has been reinforced with carbon fiber, giving it the highest strength and stiffness of all the PEEK grades and improving its load-carrying capacity.
