

## Catalog Number

65518-05P-2

**HPLC Column, Zx Similar C18, 5um, 2.1mm ID x 50mm Length.**  
Cogent Brand. 1 EA.

### Additional Info

This Cogent Zx Similar C18™ Stationary Phase is part of the Similar product line that has been a premium value used by HPLC laboratories for many years.

The "Type-B" Stationary Phase is end capped along with traditional bonding of an 18 carbon straight chain ligand to spherical shaped silica with very Similar surface area to Zorbax® columns. This makes it an ideal Alternate in USP Methods that use the L1 Classification and Agilent's Zorbax™ brand C18 HPLC Columns.

*A very popular column size, this short and narrow-bore column provides short run times but requires a pump that can precisely deliver, and a flow cell that is made for reduced flow rates with lower volumes. This column size is excellent, and a favorite for LCMS.*
