

Catalog Number

95025-DC

Decapper Tool, for 20mm Aluminum Headspace Caps. MicroSolv Brand.
1 EA.

Additional Info

When caps are not properly crimped on to a Headspace Vial, results will be unacceptable. This Decapper will remove crimped, 20mm aluminum caps from Headspace vials easily.

Placing the chuck over the crimp caps and squeezing the handles will push a cylinder down into the vial and force the crimped aluminum in an upward direction. The cap can be removed manually.

This DeCrimper Tool has a textured handle, is painted, plated and coated for maximum corrosion resistance.
